overview

inTennis® is a comprehensive and easy-to-use software solution designed for tennis centres, clubs and coaches.

It is the first software product that offers a complete business management solution for the tennis industry.

inTennis® lets you focus on your core business by reducing the time you spend completing repetitive and tedious administration tasks. inTennis® gives you the ability to administer your business through one single integrated application.

Key Features:

- Booking
- Class Management
- Invoicing
- Payment Tracking
- Contact Database
- Membership Management
- Coach and Staff Management
- Business Reporting
- Certificate Printing
- Email Communication

inTennis'® one-click backup solution also means you will never lose your important data!

calendar booking

inTennis® manages all aspects of court reservations including permanent hire, coaching lessons, public holidays, booking payments and court usage analysis. inTennis® will modernise the way you manage bookings.

print booking sheets

generate court usage reports

quick navigation to any date

track booking payments

support for once-off and repeat bookings

modify bookings easily with drag-and-drop

identify booking types by colour

benefits

- cut down tedious paper work
- eliminate double bookings
- instantly review all your court reservations
- easy tracking of booking payments

class management

inTennis® manages all aspects of running a tennis class including enrolment, scheduling lesson time, reserving tennis courts, attendance tracking, invoicing, receiving payments, student lookup, email communications, reports and certificate printing.

integrated student database

manage student invoices

track student attendance

make court bookings directly from the class

record wet weather and lesson notes

schedule class lessons

benefits

- complete class information at your fingertips
- less paperwork, more time with your students
- easy tracking of student attendance and payments
- automated invoice generation - save time and money
